Product Description

Cherrington Beach Cleaners are built to handle tough rock and coral challenges. Cherrington's high capacity Beach Cleaners are uniquely designed with the durability required for doing cleanup on projects with freshly dredged coral or hauled in sand. The unique Cherrington Beach Cleaner power-screening system can be quickly and easily adapted to meet your changing conditions. Remove seaweed, debris, glass, rocks, shells, litter, trash, animal droppings & cigarette butts all in one pass.

Cherrington Beach Cleaners use non-rotating steel screens mounted on a fixed frame rather than rotating belts. Belts are prone to stretching and expensive to replace.

Cherrington Beach Cleaners lift and carry the sand over the screen using steel loading paddles. The Cherrington system powers the screen in short, intense movements for effective separation. The sand is immediately returned to the beach while the loading paddles carry the debris that is larger than the screen-hole size into the hopper.

What are you willing to leave on your beach?

Cherrington Beach Cleaners Easily Screen Away:

- ☑ Litter and Trash
- ☑ Broken Glass
- ☑ Animal Droppings
- ☑ Cigarette Filters
- ☑ Rocks
- ☑ Sharp shells
- ☑ Encroaching Vegetation
- ☑ Seaweed
-and More!
